

WESTERN STATES ROOFING SYSTEM, INC.

Get Your Roof Winter-Ready

- 1. Check all gutters and make sure they're clean. You may want to consider a gutter guard or leaf covers.*
- 2. Make sure your gutters are securely fastened.*
- 3. If you have a flat roof with roof drains, make sure the drains are functioning.*
- 4. If you have a chimney, make sure to check the mortar and brick. Call a mason to make any repairs.*
- 5. Check all flashings. Flashings are the metal pieces used to waterproof interruptions in the roof plane such as pipes, chimneys, skylights, etc. If you suspect a deficiency and are unsure about how to fix it, call a roofing contractor.*
- 6. Check all areas of caulking. Touch up any suspected deficiencies.*

We are pleased to announce that Western States Roof Systems, Inc. offers "Roof Tune-Ups". Give us a call at (800) 805-ROOF if you would like us to assist you with your Winter roofing needs.
